Yoga Tred® Workstation mat

Applications

Yoga Tred matting can be used in both dry and wet areas.
It is ideally suited to make runners in corridors, between machines and mats on table tops.

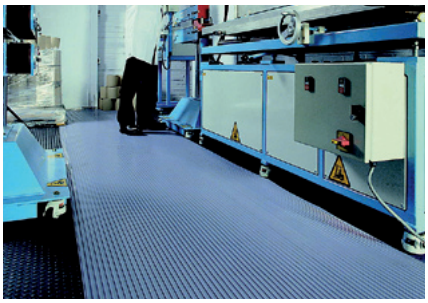

The benefits at a glance

- Yoga Tred is a fully dyed-trough 100 % vinyl matting.
- Its closed surface is very resistant to pressure and mechanical strain.
- The ribbed surface provides excellent slip resistance and is also a good and safe base for objects placed on it.
- Resistant to moisture, most common chemicals and extreme temperatures from -23°C up to + 60°C
- Excellent electrical insulation, electric strength 22.21 kV/mm to Din EN 60243-1 (VDE 0303 Part 21)
- Yoga Tred is ideal for outdoor use and for use in greenhouses

Instructions for use and cleaning

- The mats can be loose laid and do not require extra fixing
- Easy to clean with high- pressure cleaners and industrial vacuum cleaners

Properties

Eelectrical-insulation | In conformity with REACH | High-durability | Chemical-resistant

Specifications

Art Nr.:
Sizes: Rolls:
100 x 1000 cm
Thickness: 4 mm
Weight: 4.0 kg/m
Colours:

blue **black** **grey**

Material: 100 % PVC
Hardness 80 Shore A +/- 5
Surface: ribbed
Accessories: -

Properties

Flame-resistance:
-
Chemical-resistance:
DIN 51958
