Classic™ Dirt-trapping mats

Applications

Classic™ mats are the ideal solution for department stores, exhibition centres and offices. They also cope with higher amounts of dirt and grime such as those occurring at filling stations. Due to their anti-static properties they can also be used in static-sensitive EDP areas.

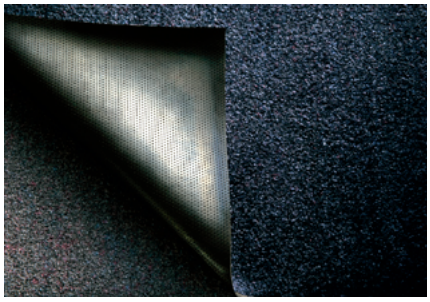

The benefits at a glance

- Anti-static due to carbon fibres
- Outstanding dirt absorption
- Moisture repellent, prevents unpleasant smells
- Nitrile rubber back
- Hard-wearing and slip-resistant
- Top-quality high-twist nylon fibres
- Anti-stain finish

Instructions for use and cleaning

- Easy care, washable at up to 60 °C

Properties

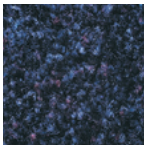

In conformity with REACH | Indoor use | hardly flammable | washable
