Roll-o-Grip®– as flexible as it is durable.

Environmentally friendly and durable; Roll-o-Grip® has it all. The natural flexibility of these durable mats enable them to support very high stresses. By that means you can be certain of many years of effortlessly gliding on the higly transparent mats while protecting the flooring material.

The advantages:

- 3 year guaranty against breakage
- Made of high-quality Makrolon® – 100% recyclable
- Robust and highly durable
- Highly transparent and neutral color plastic sheet
- PVC-free, odorless, and free of toxic chemicals
- Minimal gliding resistance for caster chairs
- Castor chair resistant (DIN EN 425)
- Slip resistance: Surface (R9 DIN 51130), Lower surface (DIN EN ISO 13287)
- Fire resistance DIN EN 13501-1
- High scratch resistance
- With a textured surface
- Compatible with floor heating systems
- Ideal for people with allergies

RS Office Products

Roll-o-Grip®

TÜVRheinland CERTIFIED Quality Regular Production Surveillance www.tuv.com ID 0000007284

made of Makrolon® High-tech plastic from Bayer

The strong environmental concept: highly flexible and fully recyclable.

Roll-o-Grip® floormats introduce a true technical innovation that supports the environment as well as the user. These highly flexible mats can be further recycled. They exemplify how a product can intelligently address the recycling circle to alleviate any environmental burden. Simultaneously natural resources are preserved in the production process which then results in an inexpensive product.

Naturally, Roll-o-Grip® mats are completly odorless and non outgassing because they contain no PVC or vinyl. On our cristal-clear mats you can also, without any hesitation, watch your children safely frolic upon them.

Roll-o-Grip® with anchor grips

For softer flooring such as carpet, we recommend this type of mat since thousand of small anchor grips keep your mat in place without damaging the flooring material. The anchor grips are suitable for high carpets.
Thickness: 1,8 mm,
Length: 4,5 mm.

Roll-o-Grip® with antiglide layer

For quality floor mats it is not only the top surface but also the bottom that plays an important role. The bottom surface must ensure that your mat stays where you want it. Our proven proprietary VAB® layer guarantees that Roll-o-Grip® mats remain in place on hard flooring such as parquet, tile or stone without any sticky glue residues.
Thickness: 1,8 mm.
